## What is CAAWS?

Capital Area Animal Welfare Society (CAAWS) is an all-volunteer, non-profit humane society, which exists on private donations and the dues of its members. CAAWS has been finding homes for animals, promoting spay/neuter programs, and educating the public on animal welfare since 1979.

## Why should you become a Member?

Members receive our bimonthly newsletter, which contains articles on pet care and current events, listings of CAAWS activities, and pet memorials. Members also have the right to vote for board members at our annual meeting in December and at any special meetings that require a vote. Your membership is the primary source of income for the every day activities of CAAWS, from paying vet bills to paying the electric bill.

## Who can become a Member?

Anyone can be a member, but only adults of at least 18 years of age may vote at our elections. All Members, including junior Members, can double their impact by encouraging others to join, or by volunteering at Pet Adoption Day or any of our other events.

---
